Grokking Meta Coding Interview

Crack the Meta Coding Interview: The Ultimate Guide to Master the Top 45 Most Frequently Asked Coding Interview Questions.

Level: Beginner | Study Time: 25h | Lessons: 91 | Playgrounds : 94

Course Overview

This comprehensive course is specifically designed to prepare candidates for their Meta coding interviews, offering an in-depth exploration of the 45 most frequently asked questions at Meta. It serves as an essential tool for anyone looking to excel in the highly competitive Meta coding interview process. With a focus on practical, hands-on learning, this course provides learners with the unique opportunity to practice and master the intricacies of Meta coding interview questions within a fully interactive in-browser coding environment. By concentrating on the key areas and challenges faced in Meta coding interviews, this course ensures that candidates are well-prepared to tackle the questions with confidence and precision.

Highlighting crucial aspects of the Meta coding interview, the course is designed to enhance your problem-solving skills, improve your coding efficiency, and deepen your understanding of algorithms, data structures, and coding patterns, all of which are critical for success at Meta. Whether you are a beginner aiming to get a head start in your preparation or an experienced developer seeking to brush up on your skills, this course caters to all levels of expertise. Each question has been carefully selected to mirror the types of challenges presented in actual Meta coding interviews, providing an invaluable resource for anyone aspiring to join the ranks of Meta or aiming to excel in FAANG coding interviews.

Course Content

1. Introduction

1 chapter

- Who Should Take This Course?

2. Meta Easy Problems

20 chapters

- ● Toeplitz Matrix (easy)
- Solution: Toeplitz Matrix
- ● Remove All Adjacent Duplicates In String (easy)
- Solution: Remove All Adjacent Duplicates In String
- ● Minimum Depth of a Binary Tree (easy)
- Solution: Minimum Depth of a Binary Tree
- ● Tree Diameter (easy)
- Solution: Tree Diameter
- ● Island Perimeter (easy)
- Solution: Island Perimeter
- ● Moving Average from Data Stream (easy)
- Solution: Moving Average from Data Stream
- ● Move Zeroes (easy)
- Solution: Move Zeroes
- ● Missing Ranges (easy)
- Solution: Missing Ranges
- ● Palindrome Permutation (easy)
- Solution: Palindrome Permutation
- Rank Transform of an Array
- Solution: Rank Transform of an Array

3. Meta Medium Problems

50 chapters

- ● Diagonal Traverse (medium)
- Solution: Diagonal Traverse
- ● Shortest Path in Binary Matrix (medium)
- Solution: Shortest Path in Binary Matrix
- ● Maximum Swap (medium)
- Solution: Maximum Swap
- ● Custom Sort String (medium)
- Solution: Custom Sort String
- ● Binary Tree Vertical Order Traversal (medium)
- Solution: Binary Tree Vertical Order Traversal
- ● Buildings With an Ocean View (medium)
- Solution: Buildings With an Ocean View
- ● Basic Calculator II (medium)
- Solution: Basic Calculator II
- ● Nested List Weight Sum (medium)
- Solution: Nested List Weight Sum
- ● Dot Product of Two Sparse Vectors (medium)
- Solution: Dot Product of Two Sparse Vectors
- ● Max Consecutive Ones III (medium)
- Solution: Max Consecutive Ones III
- ● Subarray Sum Equals K (medium)
- Solution: Subarray Sum Equals K
- ● Next Permutation (medium)
- Solution: Next Permutation
- ● Simplify Path (medium)
- Solution: Simplify Path
- ● Lowest Common Ancestor of a Binary Search Tree (medium)
- Solution: Lowest Common Ancestor of a Binary Search Tree
- ● 'K' Closest Points to the Origin (easy)
- Solution: 'K' Closest Points to the Origin
- ● Sum of Path Numbers (medium)
- Solution: Sum of Path Numbers
- ● Merge Intervals (medium)
- Solution: Merge Intervals
- ● Right View of a Binary Tree (medium)
- Solution: Right View of a Binary Tree
- ● Number of Islands (easy)
- Solution: Number of Islands
- ● Clone Graph (medium)
- Solution: Clone Graph
- ● Missing Element in Sorted Array (medium)
- Solution: Missing Element in Sorted Array
- ● Number of Substrings Containing All Three Characters (medium)
- Solution: Number of Substrings Containing All Three Characters
- ● Capacity To Ship Packages Within D Days (medium)
- Solution: Capacity To Ship Packages Within D Days
- ● Count and Say (medium)
- Solution: Count and Say
- ● Contiguous Array (medium)
- Solution: Contiguous Array

4. Meta Hard Problems

20 chapters

- ● Sliding Window Median (hard)
- Solution: Sliding Window Median
- ● Alien Dictionary (hard)
- Solution: Alien Dictionary
- ● Minimum Window Substring (hard)
- Solution: Minimum Window Substring
- Best Meeting Point (Hard)
- Solution: Best Meeting Point
- ● Maximum Sum of 3 Non-Overlapping Subarrays (hard)
- Solution: Maximum Sum of 3 Non-Overlapping Subarrays
- ● Making A Large Island (hard)
- Solution: Making A Large Island
- Basic Calculator (Hard)
- Solution: Basic Calculator
- ● Serialize and Deserialize Binary Tree (hard)
- Solution: Serialize and Deserialize Binary Tree
- ● Longest Increasing Path in a Matrix (hard)
- Solution: Longest Increasing Path in a Matrix
- ● Valid Palindrome III (hard)
- Solution: Valid Palindrome III
