Frequency Sort (medium)

Problem Statement

Given a string, sort it based on the decreasing frequency of its characters.

Example 1:

```
Input: "Programming"
Output: "rrggmmPiano"
Explanation: 'r', 'g', and 'm' appeared twice, so they need to appear
before any other character.
```

Example 2:

```
Input: "abcbab"
Output: "bbbaac"
Explanation: 'b' appeared three times, 'a' appeared twice, and 'c'
appeared only once.
```

Try it yourself

Try solving this question here:

Java

```java
import java.util.*;

class Solution {

  public String sortCharacterByFrequency(String str) {
    // TODO: Write your code here
    return "";
  }
}

```

...

Test Case | Run Code Result | Stdout

"aabbbc"
