Quiz: Cassandra

Quiz ?

Statement

In CAP theorem terms, Cassandra is ___ system?

Select Multiple Options

Correct
☑ AP (Available and Partition Tolerant)

False
☐ CP (Consistent and Partition Tolerant)

False
☐ CA (Consistent and Available Tolerant)

Check Answer

Correct Answer ✓

Quiz ?

Statement

Read repair ALWAYS happens when the consistency level is set to

Select Multiple Options

False
☐ One

False
☐ Two

False
☐ Quorum

Correct
☑ All

Check Answer

Correct Answer ✓

Quiz ?

Statement

Nodes can only gossip with specific other nodes in the cluster.

Select Multiple Options

False
☐ True

Correct
☑ False

Check Answer

Correct Answer ✓

Quiz ?

Statement

Cassandra automatically assigns tokens to Vnodes.

Select Multiple Options

Correct
☑ True

False
☐ False

Check Answer

Correct Answer ✓

Quiz ?

Statement

Snitch is used for

Select Multiple Options

False
☐ Communicating with other nodes.

Correct
☑ Determining each node's rack and datacenter.

False
☐ Assigning a leader node in the cluster.

False
☐ Notifying the coordinator node what partition is down.

Check Answer

Correct Answer ✓

Quiz ?

Statement

When does a client acknowledge the write

Select Multiple Options

False
☐ After writing to the commit log and SSTable

False
☐ After writing to the MemTable and SSTable

False
☐ After writing to the MemTable

Correct
☑ After writing to the commit log and MemTable

Check Answer

Correct Answer ✓

Quiz ?

Statement

Which of the following are stored and sorted by the clustering columns? Check all that apply

Select Multiple Options

False
☐ Commit log

Correct
☑ SSTable

False
☐ Row cache

Correct
☑ MemTable

Check Answer

Correct Answer ✓

Quiz ?

Statement

Which of the following structures are accessed from the disk? Check all that apply.

Select Multiple Options

False
☐ Key cache

Correct
☑ SSTable

False
☐ Bloom filter

Correct
☑ Partition index

False
☐ Partition summary

Check Answer

Correct Answer ✓

Quiz ?

Statement

The partition summary.

Select Multiple Options

False
☐ stores the most recently accessed records.

Correct
☑ stores the byte offsets into the partition index.

False
☐ stores the actual partition.

False
☐ stores the partition byte offsets in the SSTable.

Check Answer

Correct Answer ✓

Quiz ?

Statement

All tombstones are discarded during compactions.

Select Multiple Options

False
☐ True

Correct
☑ False

Check Answer

Correct Answer ✓

Quiz ?

Statement

Which Cassandra consistency level means a majority of the replicas in each datacenter must respond?

Select Multiple Options

Correct
☑ EACH_QUORUM

False
☐ ANY

False
☐ QUORUM

False
☐ MOST

Check Answer

Correct Answer ✓

Quiz ?

Statement

What is the role of the partitioner?

Select Multiple Options

False
☐ To organize the data together physically on the disk

Correct
☑ To hash the partition key to determine the partition token

False
☐ To physically separate rows into equal-sized columns

False
☐ To notify the coordinator node what partition is down

Check Answer

Correct Answer ✓
