Right View of a Binary Tree (medium)

Problem Statement

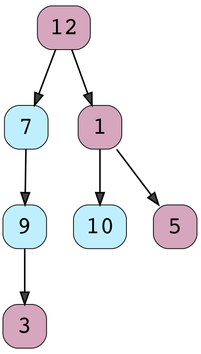

Given a binary tree, return an array containing nodes in its right view. The right view of a binary tree is the set of **nodes visible when the tree is seen from the right side.**

Example 1

Right View: [1, 3, 7]

Exampe 2

Right View: [12, 1, 5, 3]

Try it yourself

Try solving this question here:

Java

```java
import java.util.*;

/*class TreeNode {
  int val;
  TreeNode left;
  TreeNode right;

  TreeNode(int x) {
    val = x;
  }
};*/

class Solution {
  public static List<Integer> traverse(TreeNode root) {
    List<Integer> result = new ArrayList<>();
    // TODO: Write your code here

    return result;
  }
}
```

Test Case | Run Code Result | Stdout

[1,2,3,4,5]

Use Example Testcases | Run | Submit
